Emergency Management/Responder Credentialing Program

LOCAL EOC POSITION TASK BOOK

This Position Task
Book Belongs to: _____

Rev. 3/1/09
Version 2.0

California Emergency Management Agency (CalEMA) Emergency Management/Responder Credentialing Program

CRITERIA

All applicants must meet the current certification and qualifications as listed in the Emergency Management/Responder Credentialing Program “program book” or specific “level” position Task Book. These documents can be found at the CSTI Website, www.csti.ca.gov under the link Emergency Responder Credentialing Program.

Emergency Services Director or his/her designee must verify all information submitted is true and correct, utilizing the Credentialing Checklist and Application form for the position to be credentialed.

Emergency Services Director or his/her designee must provide specific information or certificates (i.e. date, incident name and satisfactory verification of the complex incident, exercises) to justify compliance.

HOW TO APPLY

Separate applications must be submitted for each position and level for which an applicant desires application.

Application consists of:

- Specific position and level of credentialing checklist and application
- Backup documentation (position task book, certificates, other forms)
- Signed by the Emergency Services Director or Designee
- Provide a “passport” type picture of the person seeking credentialing
 - Hard copy or send electronically through e-mail below

Send this information to:

CalEMA
Attention: Emergency Responder Credentialing Coordinator
3650 Schriever Ave.
Mather, CA 95655-4203

Please e-mail questions to: [credentialing.coordinator @oes.ca.gov](mailto:credentialing.coordinator@oes.ca.gov)

CREDENTIALING Forward

The State's public, private, volunteer, and tribal emergency responders have been serving their local communities for as long as their respective organizations have existed. These same responders have also ably assisted neighboring communities whenever help was needed. Given today's challenges, however, the potential for local communities to require help from emergency response organizations across the state has increased significantly.

The need for emergency responders to deploy to incidents outside their own localities has placed additional demands on our emergency response communities. Existing mutual-aid systems must be able to guarantee swift and successful support through the routine identification and dispatch of qualified emergency responders to any domestic incident—the resultant organization of resources must be seamless, safe, and effective. All of this must be accomplished with emergency resources from communities across the State that may have different training programs, certification and job experience requirements, and identification protocols.

The development of a statewide credentialing system can help to provide the Incident Command System (ICS) with the means to verify, quickly and accurately, the qualifications of emergency responders who have been requested to augment State and local resources at an incident site. In addition, it can serve to document professional qualifications, certifications, training, and education requirements that define baseline criteria expected of emergency response professionals and volunteers who are called upon to assist other communities across the State.

While such a system is meant to verify the identity and qualifications of emergency responders, it does not provide automatic access to an incident site. In this way it can serve to prevent unauthorized (i.e., self-dispatched or unqualified personnel) access to an incident site. Additionally, responders credentialed in a specific ICS position may still not be fully qualified to fill the position due to the type and extent of the incident.

The state's Emergency Management/Responder Credentialing systems is designed to flow into the larger effort of the NIMS Guidelines for the Credentialing of Personnel (11/21/08 Document Guidance). By following the framework of the Federal Guidance, the state's system should facilitate a seamless transition into a national system. Additionally, it is the state's intent not to duplicate existing credentialing systems and minimize impact to its constituents.

The initial attempt of the state to develop and implement a credentialing system will help promote effective and efficient personnel resource management in time of need. The net effect of this system should be less loss of life, environment, and property during a disaster.

Overview of State Credentialing

Overview of the State Credentialing Processing Procedure

Background:

NIMS compliance must include day-to-day operations as well as major incidents involving federal participation. The intent of NIMS is to ensure that all levels of government throughout the United States have the capability to work effectively together, using a national approach to domestic incident management so that all first responders at all levels use the same organizational structures, terminology, procedures, and systems at all times.

Credentialing for California is based on the NIMS Guidelines for the Credentialing of Personnel. If an employer wishes to achieve "State Credentialing" and a card so indicating the SEMS/NIMS level and position credentialed, it must comply with the "certification and qualification" standards for each level and position desired (see attached level and position criteria), and follow the "State Credentialing Processing Procedure," both of which are specified herein.

Employer Request for State Credential:

For state credentialing the employer must first do the following:

1. Identify the personnel, per SEMS level and position, to be credentialed
2. Provided minimum "Certification" training requirements, any existing local certification requirements and any physical and medical fitness requirements specified for the level and position for which each individual is requesting credentialing, and
3. Verify minimum "Qualifications" (including any additional actual incident experiences, equivalent exercising, or mentoring experiences, additional training and/or education requirements, professional certificates, etc.) specified for the level and position for which each individual is requesting credentialing.

The employer then must then do the following:

1. Submit to CalEMA Credentialing Coordinator a request for state credentialing for each position requesting credentialing by submitting the appropriate Task Book Credentialing Checklist & Application.
2. Attach all required and appropriate forms including: including "Resume of Experience", SEMS "Performance Evaluation Forms" (forms relates to appropriate ICS Position Checklist in ICS 420-1), showing a rating of "Satisfactory" or better (satisfactory means performing at least 70% of tasks for appropriate ICS Position Checklist in a safe and competent manner, to the satisfaction of the ICS supervisory position or evaluator), and copies of any

training certificates, degrees or professional certificates required for the individual's level and position

3. Have "checklist & application" reviewer sign and date application acknowledging that the employer has self-certified that the person is physically and medically fit for the level and position, and has met all certification and qualification standards under the SEMS/NIMs guidelines
4. Have the Emergency Services Director or Designee sign "checklist & application"
5. Provide any other follow-up documentation or information requested CalEMA
6. Submit a passport size picture to be included in the credential

CalEMA Credentialing Administration Will:

1. Upon receipt of an employer's request to credential an individual, the Credentialing Unit of CalEMA shall review all forms and information submitted
2. If "equivalencies" are provided, **CalEMA will** determine whether they meet the intent of the original requirement, and document accordingly
3. If "deficiencies" exist, send a letter or make contact with the applicant specifying the deficiencies to the employer, along with the procedures for appeal
4. If proof of credentialing through another existing recognized discipline specific certifications, qualifications and standards authority is submitted and verified, such credentialing shall be deemed equivalent to these requirements and acceptable for processing per 5, 6 & 7 below.
5. If all requirements are met, enter the person's name and appropriate information into the State Credentialing database
6. Process a wallet-size "Card" indicating the position and level for which the individual is credentialed
7. Send the card and credential letter to the employer for distribution.

Glossary, Terms, & Acronyms

GLOSSARY of CRITICAL TERMS

Credentialing:

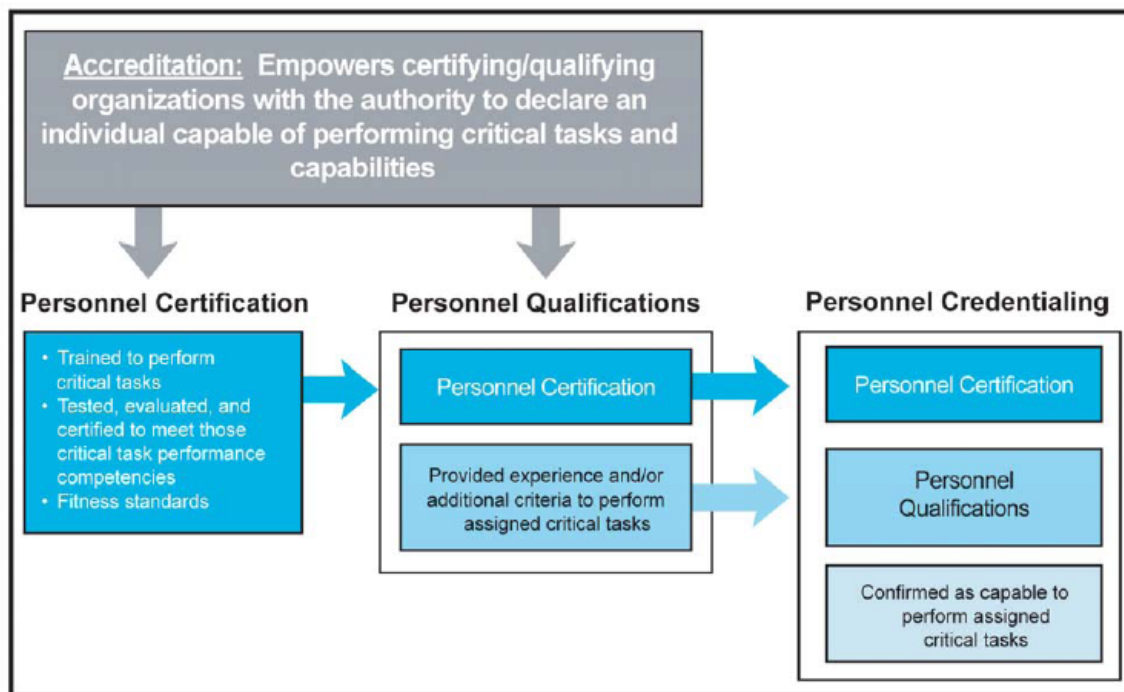

Credentialing involves providing documentation that can *quickly* authenticate and verify the qualifications and certification of designated Emergency Managers/Responers. This system helps ensure that personnel representing various jurisdictional levels and functional disciplines possess a minimum common level of training, currency, experience, physical and medical fitness, incident management or emergency responder position they are tasked to fill.

Certification:

Certification involves measuring an individual's competence through a testing or evaluation process. Personnel are certified by their discipline's relevant certifying authority. Accreditation refers to the "empowerment of certifying/qualifying organizations with the authority to declare and individual capable of performing critical tasks and capabilities."

Qualifications:

The next stage is **qualification**, which refers to "certified" personnel who have the "provided experience and/or additional *training and* qualifications to perform assigned critical tasks and capabilities." That is, not all "certified" emergency responders may be "qualified" to respond to an incident. Additional criteria, *such as further training and exercising, field experience, mentoring, possessing required certificates and credentials, etc. that* may apply.

“Complex” Multi-Agency Incident, Planned Event, and Exercise

The term “complex” is subjective. Here are two interpretations:

1) CICC Definition: There are many factors that determine incident complexity: geographic size, location, threat to life and property, political sensitivity, organizational complexity, jurisdictional boundaries, values at risk, agency policy and others. Incident complexity is identified by types 1 thru 5 with a type 1 incident being the most complex and type 5 the least. For example a type 5 incident is characterized by relatively few resources, is of short duration, and has few if any of the complexity factors listed above. A common type 5 incident is often a single responding unit which is able to bring things back to normal without additional assistance. A type 1 incident may be escalated from the type 5 level, taking on many of the above listed complexities; or it may start out that way from the initial onset as we’ve seen with recent natural disasters. Most emergencies are successfully handled at the local level, requiring little assistance from outside jurisdictions. However, when an incident escalates beyond a jurisdiction’s capability, it is important that there are pre-established processes and procedures for ordering the appropriate level of management expertise. By typing incidents based on complexity, an agency administrator or jurisdictional emergency manager is better able to order and assign the appropriately qualified personnel.

2) CSTI definition: Complex incidents usually are of long duration, requiring multiple response agencies, jurisdictions and resources. They pose significant problems for responders to deal with and Incident Commanders to manage during the “emergency” phase of the incident. Mutual Aid may be utilized to a small degree or extensively.

Finally, To one jurisdiction a small multiple vehicle traffic accident may be complex, while another jurisdiction a large scale multi-casualty incident would be considered complex. It is important to note that a “complex” incident, event, and/or exercise must use ICS and have multiple-agencies involved. It is not the intent of this credentialing process to exclude jurisdictions based on its geographic size, location, threat to life and property, political sensitivity, organizational complexity, jurisdictional boundaries, values at risk, agency policy and others. This liberal interpretation will canvas both the smaller more rural and larger urban jurisdictions.

Medically and Physically Fit

Individuals must be healthy enough to function under field and Emergency Operations Center conditions, *as judged by the employer or physician as necessary*, which may include all or some of the following:

- 12-hour shifts, austere conditions (possibly no showers, housing in tents, portable toilets)
- Extreme weather conditions (long exposure to heat and humidity, lack of air conditioning, extreme cold, or wet environments)
- Long periods of standing
- Individuals should not require personal medications that need refrigeration of any kind
- Individuals should not have any physical conditions, impairments, or restrictions that would preclude them from participating in the moving and lifting of patients and/or equipment and supplies
- Immunizations:
 - Tetanus and diphtheria (Td) toxoid or Tetanus, diphtheria, and pertussis
 - (Tdap.) Receipt of primary series and booster within 10 years.
 - Documentation of Hepatitis B Vaccination Series and documentation of a
 - positive titer (antibody to HBsAg) OR completion of a “waiver of liability”

“Mentoring” Process

Mentoring as considered in the credentialing program shall be defined as a process in which an ICS/SEMS level position is filled by a state credentialed person and has with him/her at all times a person in training, who observes the state credentialed person perform his/her required tasks, or in some instances actually performs the ICS/SEMS level position tasks under the direct supervision of the state credentialed person.

Planned Event

A planned event constitutes any organized event which multi-agencies use ICS to prepare and stage resources for the potential adverse impact to life, environment, and/or property.

Qualifying “Exercise”

To be credited as an “exercise” under this credentialing program, an exercise must be either a “Functional” or “Full Scale” Exercise as defined by FEMA and

CalEMA. The exercise shall include multiple agencies or jurisdictions, and be held over at least a four (4) hour period), with a formal critique identifying lessons learned.

“Satisfactory” Evaluation

Until further criteria can be established, an evaluation of “satisfactory” performance during an actual incident, planned event, exercise, or mentoring process shall mean:

Person performed ICS/SEMS level position tasks in a safe and competent manner, contributing to the response and/or management of the incident or planned event, as evaluated by the supervising ICS/SEMS position, and would be utilized again in that ICS/SEMS level position in future incidents or planned events.

“Credentialing Accreditation Authority”

Emergency Services Director by ordinance or his/her designee, or Emergency Services Coordinator of the Jurisdiction.

ACRONYMS

CalEMA

California Emergency Management Agency

CDHS

California Department of Health Services

CICCS (#311)

An acronym for California Incident Command Certification System. A California *Fire Service* certification system for positions within the Incident Command System.

CICCS is a “Performance Based System” utilizing established minimum training standards and documented experience.

CDHS

California Department of Health Services

CEM

IAEM created the **Certified Emergency Manager®** Program to raise and maintain professional standards. It is an internationally recognized program that certifies achievements within the emergency management profession.

CSTI

California Specialized Training Institute

EMSA

State Emergency Medical Services Authority

FEMA

Federal Emergency Management Agency

HEICS

An acronym for Hospital Incident Command System. ICS used in hospitals nationwide; required by the Joint Commission on the Accreditation of Hospital Organizations (JCAHO).

ICS

Incident Command System

POST

Police Officer Standards and Training

RIMS

Acronym for Response Information Management System. RIMS is a computer system used by State of California and local government for tracking mission requests, situation report, and documenting status of disasters and significant events.

ROSS

Stands for Resource Ordering and Statusing System. It is currently a product of the National Wildfire Coordinating Group and is maintained and financed through an interagency agreement via NWCG agencies. CDF and OES Fire/Rescue utilize ROSS

SDOC

State of California Department Operating Center

SEMS

Standardized Emergency Management System (CA)

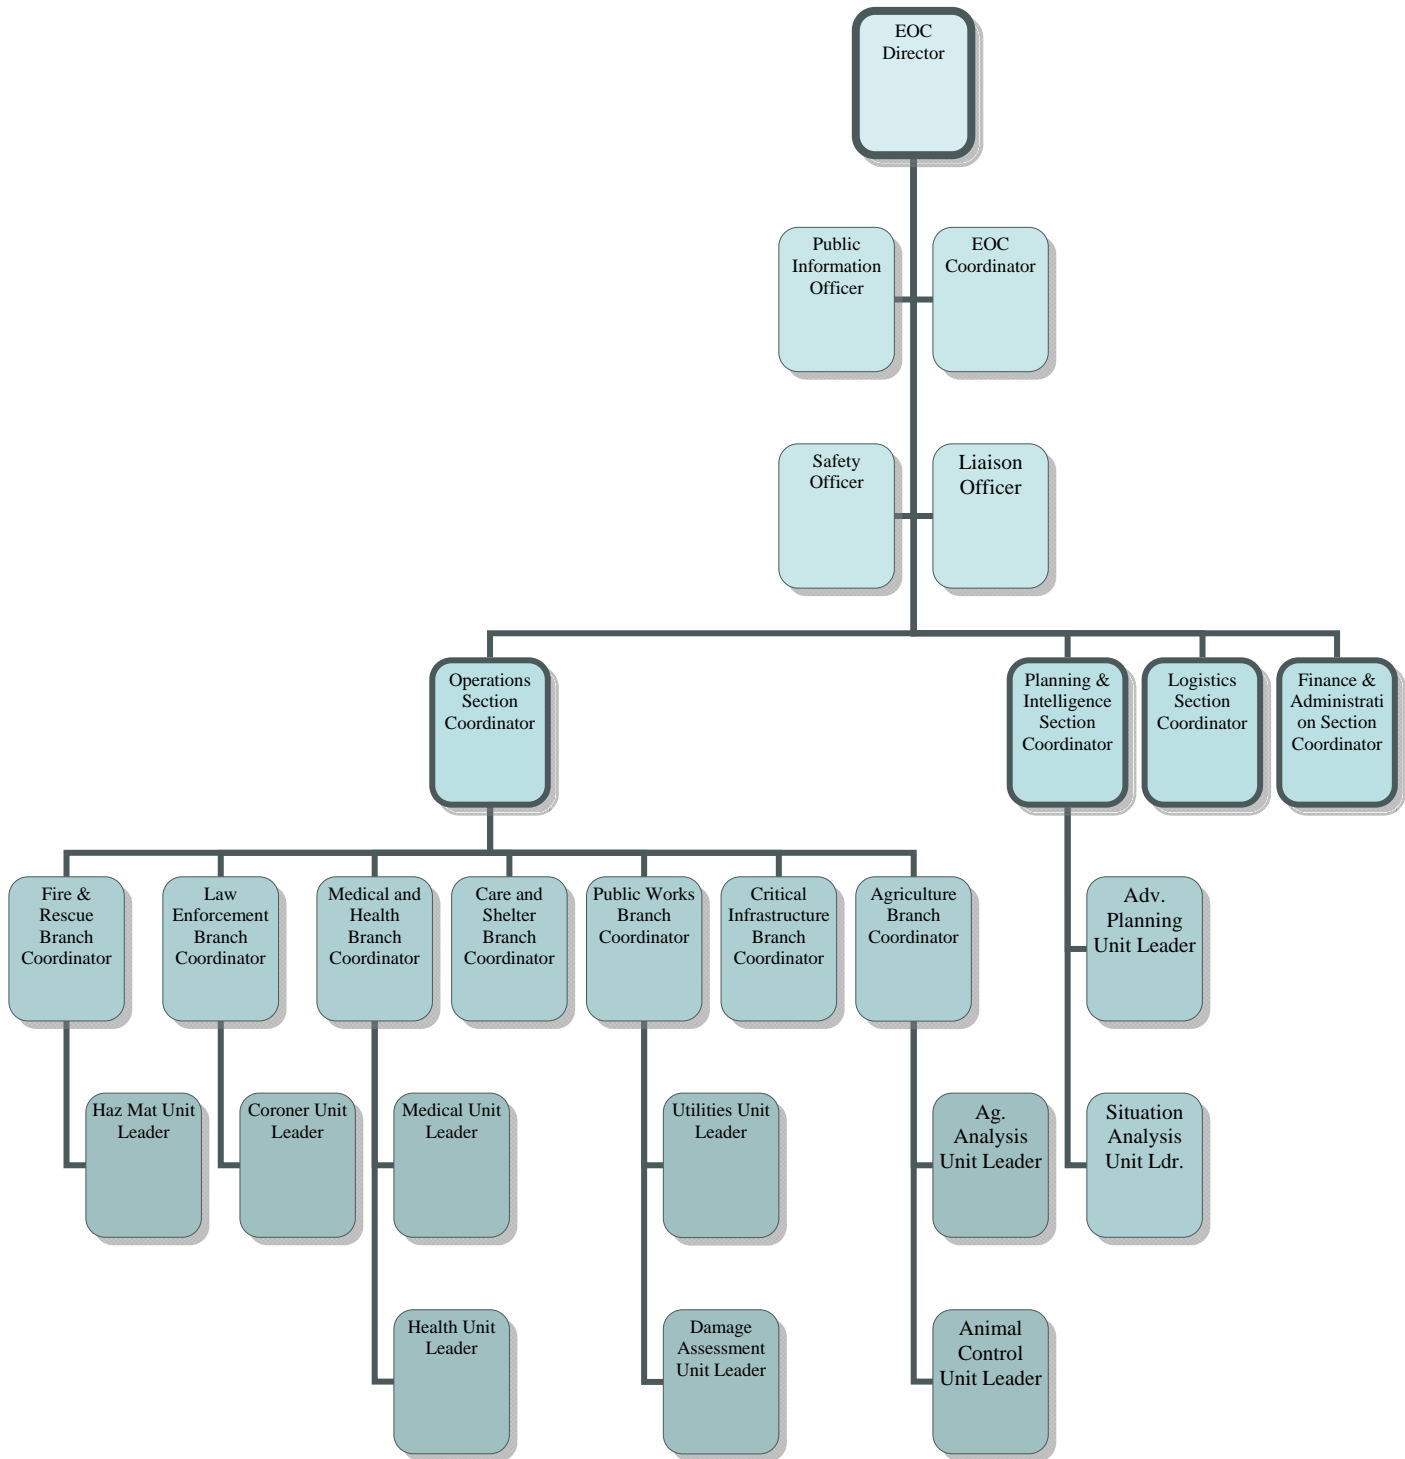

SFM

State Office of the Fire Marshal

SEMS Local EOC Credentialed Positions

SEMS LOCAL EOC CREDENTIALLED *POSITIONS

*This organization chart does not depict all SEMS ICS positions, only the positions which have been identified to be credentialed.

Finance & Administration Section Coordinator	44

SEMS Level: Local Emergency Operations Center (EOC)

SEMS Position: EOC Director

Certification:

- SEMS/NIMS “Equivalent” EOC G 611 Course, incl. “EOC Director” Position Training
- IS-700 NIMS “Equivalent” Overview Training
 - ▶ Or SEMS/ICS/NIMS Combined Course, POST NIMS/SEMS Basic Course, etc.
- IS 800 B National Response Framework
- Medically and physically fit to complete multiple Operational Periods.

Qualifications:

- 1 year senior managerial experience within a City, County, Tribal or Special District
 - ▶ Or Certified Emergency Manager (CEM) credential
 - ▶ Or CalEMA/CSTI Emergency Management Specialists Certificates
 - ▶ Or Designated as “Emergency Services Director” or alternate in the Local Emergency Plan by the appropriate governing body
- 1 “complex” multi-agency incident experiences, by actually filling the “EOC Director” (or Deputy “EOC Director” or any “General Staff”) position in an EOC during a declared emergency
 - ▶ Or filling the above position in an EOC during a multi agency exercise
 - ▶ Or mentoring under a person filling the above position in an EOC during a declared emergency
 - ▶ Or CalEMA/CSTI, FEMA, etc. Emergency Management Course (e.g. 36 hour Earthquake Course or a Professional Development Series course)
 - ▶ Or CalEMA/CSTI Emergency Management Specialists Certificates
 - ▶ Or completion of a minimum of 12 units of core course work from an accredited college or university in the field of emergency management or closely related field

Credentialing:

- If state certification is requested, provide documentation per “Credentialing Checklist & Application”, for the level and position per above criteria and the “State Credentialing Processing Procedure” (state position credentialing is voluntary, but is required for interstate mutual aid and NIMS compliance).
- Refresher requirement may be met by documenting actual incident experiences at the position, filling equivalent local EOC level ICS positions, drills, exercises or other refresher training in subject matter, position and/or function listed above within a 5 year period.

SEMS Level: Local Emergency Operations Center (EOC)

SEMS Position: EOC Coordinator (Note: May fill EOC Director position if so delegated by the ESD)

Certification:

- SEMS “Equivalent” Field Level Course – ACI Orientation, Basic Modules 1-6, Intermediate Modules 7-11, and Advance Modules 12-17
 - ▶ Or ICS 100-400, NWCG ICS Courses, etc.
- SEMS/NIMS “Equivalent” EOC G 611 Course, including “EOC Coordinator” or “EOC Director” Position Training
- IS-700 NIMS “Equivalent” Overview Training
 - ▶ Or SEMS/ICS/NIMS Combined Course, POST NIMS/SEMS Basic Course, etc.
- IS 800 B National Response Framework
- Medically and physically fit to complete multiple Operational Periods.

Qualifications:

- 18 months experience as “Emergency Services Coordinator/Director” for a City, County, Tribal or Special District
 - ▶ Or Certified Emergency Manager (CEM) credential
 - ▶ Or CalEMA/CSTI Emergency Management Specialists Certificates
 - ▶ Or Designated as “Emergency Services Coordinator” in the governing body
- 2 “complex” multi-agency incident experiences, by actually filling an “EOC Coordinator” (or “EOC Director” or any “General Staff”) position in an EOC during a declared emergency, with an evaluation of “Satisfactory” or above by the supervising SEMS position
 - ▶ Or filling the above position at an EOC during 4 multi agency exercises, with an evaluation of “Satisfactory” or above by the supervising SEMS position or evaluator
 - ▶ Or mentoring under a person filling the above position at an EOC during 3 “complex” multi-agency incidents, with an evaluation of “Satisfactory” or above by the supervising SEMS position
- 2 or more CalEMA/CSTI, FEMA, etc. Emergency Management Courses (i.e. CalEMA/CSTI Earthquake, Managing Sustained Operations, Emergency Operations Center Courses and/or the FEMA Professional Development Series courses etc.)
 - ▶ Or completion of a minimum of 12 units of core course work from an accredited college or university in the field of emergency management or closely related field
 - ▶ Or CalEMA/CSTI Emergency Management Specialists Certificates

Credentialing:

- If state certification is requested, provide documentation per “Credentialing Checklist & Application”, for the level and position per above criteria and the “State Credentialing Processing Procedure” (state position credentialing is voluntary, but is required for interstate mutual aid and NIMS compliance).
- Refresher requirement may be met by documenting actual incident experiences at the position, filling equivalent local EOC level ICS positions, drills, exercises or other refresher training in subject matter, position and/or function listed above within a 5 year period.

SEMS Level: Local Emergency Operations Center (EOC)

SEMS Position: Public Information Officer

Certification:

- SEMS/NIMS “Equivalent” EOC G 611 Course, including “Public Information Officer” Position Training
- IS-700 NIMS “Equivalent” Overview Training
 - ▶ Or SEMS/ICS/NIMS Combined Course, POST NIMS/SEMS Basic Course, etc.
- IS 800 B National Response Framework
- Medically and physically fit to complete multiple Operational Periods.

Qualifications:

- 1 year experience in any “public information” or “public affairs” assignment working with the media for a City, County, Tribal or Special District
 - ▶ Or Certified Emergency Manager (CEM) credential
 - ▶ Or CalEMA/CSTI Crisis Communication Specialists Certificates
 - ▶ Or Designated as “Public Information Officer” or alternate in the Local Emergency Plan by the appropriate governing body
- 1 “complex” multi-agency incident experiences, by actually filling an “Public Information Officer” (or “Deputy Public Officer”) position in an EOC during a declared emergency, with an evaluation of “Satisfactory” or above by the supervising SEMS position
 - ▶ Or filling the above position at an EOC during 3 multi agency exercises, with an evaluation of “Satisfactory” or above by the supervising SEMS position or evaluator
 - ▶ Or mentoring under a person filling the above position at an EOC during 2 “complex” multi-agency incidents, with an evaluation of “Satisfactory” or above by the supervising SEMS position
- CalEMA/CSTI, FEMA, etc. Public Information Officer Course (e.g. CSTI PIO Course)
 - ▶ Or completion of a minimum of 12 units of core course work from an accredited college or university in the field of emergency management or closely related field
 - ▶ Or CalEMA/CSTI Crisis Communication Specialists Certificates

Credentialing:

- If state certification is requested, provide documentation per “Credentialing Checklist & Application”, for the level and position per above criteria and the “State Credentialing Processing Procedure” (state position credentialing is voluntary, but is required for interstate mutual aid and NIMS compliance).
- Refresher requirement may be met by documenting actual incident experiences at the position, filling equivalent local EOC level ICS positions, drills, exercises or other refresher training in subject matter, position and/or function listed above within a 5 year period.

SEMS Level: Local Emergency Operations Center (EOC)

SEMS Position: Safety Officer

Certification:

- SEMS/NIMS “Equivalent” EOC G 611 Course, incl. “Safety Officer” Position Training
- IS-700 NIMS “Equivalent” Overview Training
 - ▶ Or SEMS/ICS/NIMS Combined Course, POST NIMS/SEMS Basic Course, etc.
- IS 800 B National Response Framework
- Medically and physically fit to complete multiple Operational Periods.

Qualifications:

- 1 year experience in any “safety” or “risk management” assignment for a City, County, Tribal or Special District
 - ▶ Or Certified Emergency Manager (CEM) credential
 - ▶ Or CalEMA/CSTI Emergency Management Specialists Certificates
 - ▶ Or Designated as “Safety Officer” in the Local Emergency Plan by the appropriate governing body
- 1 “complex” multi-agency incident experiences, by actually filling an “Safety Officer” (or “Assistant Safety Officer”) position in an EOC during a declared emergency, with an evaluation of “Satisfactory” or above by the supervising SEMS position
 - ▶ Or filling the above position at an EOC during 3 multi agency exercises, with an evaluation of “Satisfactory” or above by the supervising SEMS position or evaluator
 - ▶ Or mentoring under a person filling the above position at an EOC during 2 “complex” multi-agency incidents, with an evaluation of “Satisfactory” or above by the supervising SEMS position
- CalEMA/CSTI, FEMA, etc. Emergency Management Course (e.g. 36 hour Earthquake Course or a Professional Development Series course)
 - ▶ Or completion of a minimum of 12 units of core course work from an accredited college or university in the field of emergency management or closely related field
 - ▶ Or CalEMA/CSTI Emergency Management Specialists Certificates

Credentialing:

- If state certification is requested, provide documentation per “Credentialing Checklist & Application”, for the level and position per above criteria and the “State Credentialing Processing Procedure” (state position credentialing is voluntary, but is required for interstate mutual aid and NIMS compliance).
- Refresher requirement may be met by documenting actual incident experiences at the position, filling equivalent local EOC level ICS positions, drills, exercises or other refresher training in subject matter, position and/or function listed above within a 5 year period.

SEMS Level: Local Emergency Operations Center (EOC)

SEMS Position: Liaison Officer

Certification:

- SEMS/NIMS “Equivalent” EOC G 611 Course, including “Liaison Officer” Position Training
- IS-700 NIMS “Equivalent” Overview Training
 - ▶ Or SEMS/ICS/NIMS Combined Course, POST NIMS/SEMS Basic Course, etc.
- IS 800 B National Response Framework
- Medically and physically fit to complete multiple Operational Periods.

Qualifications:

- 1 year experience in any “liaison” or “agency representative” assignment for a City, County, Tribal or Special District
 - ▶ Or Certified Emergency Manager (CEM) credential
 - ▶ Or CalEMA/CSTI Emergency Management Specialists Certificates
 - ▶ Or Designated as “Liaison Officer” or alternate in the Local Emergency Plan by the appropriate governing body
- 1 “complex” multi-agency incident experiences, by actually filling an “Liaison Officer” (or “Assistant Liaison Safety Officer”) position in an EOC during a declared emergency, with an evaluation of “Satisfactory” or above by the supervising SEMS position
 - ▶ Or filling the above position at an EOC during 3 multi agency exercises, with an evaluation of “Satisfactory” or above by the supervising SEMS position or evaluator
 - ▶ Or mentoring under a person filling the above position at an EOC during 2 “complex” multi-agency incidents, with an evaluation of “Satisfactory” or above by the supervising SEMS position
- CalEMA/CSTI, FEMA, etc. Emergency Management Course (e.g. 36 hour Earthquake Course or a Professional Development Series course)
 - ▶ Or completion of a minimum of 12 units of core course work from an accredited college or university in the field of emergency management or closely related field
 - ▶ Or CalEMA/CSTI Emergency Management Specialists Certificates

Credentialing:

- If state certification is requested, provide documentation per “Credentialing Checklist & Application”, for the level and position per above criteria and the “State Credentialing Processing Procedure” (state position credentialing is voluntary, but is required for interstate mutual aid and NIMS compliance).
- Refresher requirement may be met by documenting actual incident experiences at the position, filling equivalent local EOC level ICS positions, drills, exercises or other refresher training in subject matter, position and/or function listed above within a 5 year period.

SEMS Level: Local Emergency Operations Center (EOC)

SEMS Position: Operations Section Coordinator

Certification:

- SEMS “Equivalent” Field Level Course – ACI Orientation, Basic Modules 1-6, Intermediate Modules 7-11, and Advance Modules 12-17
 - ▶ Or ICS 100-400, NWCG ICS Courses, etc.
- SEMS/NIMS “Equivalent” EOC G 611 Course, incl. “Operations Section Coordinator”
- IS-700 NIMS “Equivalent” Overview Training
 - ▶ Or SEMS/ICS/NIMS Combined Course, POST NIMS/SEMS Basic Course, etc.
- IS 800 B National Response Framework
- Situation & Resource Tracking System training (i.e. RIMS, ROSS, etc.)
- Medically and physically fit to complete multiple Operational Periods.

Qualifications:

- 1 year experience in “mid or upper level management” within an “emergency services” related department/agency (fire, sheriff, EMS, construction and engineering, etc.) for a City, County, Tribal or Special District
 - ▶ Or Certified Emergency Manager (CEM) credential
 - ▶ Or CalEMA/CSTI Emergency Management Specialists Certificates
 - ▶ Or Designated as “Operations Section Coordinator” or alternate in the Local Emergency Plan by the appropriate governing body
- 2 “complex” multi-agency incident experiences, by actually filling an “Operations Section Coordinator” (or “Deputy Operations Section Coordinator” or any “General Staff”) position in an EOC during a declared emergency, with an evaluation of “Satisfactory” or above by the supervising SEMS position
 - ▶ Or filling the above position at an EOC during 4 multi agency exercises, with an evaluation of “Satisfactory” or above by the supervising SEMS position or evaluator
 - ▶ Or mentoring under a person filling the above position at an EOC during 3 “complex” multi-agency incidents, with an evaluation of “Satisfactory” or above by the supervising SEMS position
- CalEMA/CSTI, FEMA, etc. Emergency Management Course (e.g. 36 hour Earthquake Course or a Professional Development Series course)
 - ▶ Or completion of a minimum of 12 units of core course work from an accredited college or university in the field of emergency management or closely related field
 - ▶ Or CalEMA/CSTI Emergency Management Specialists Certificates

Credentialing:

- If state certification is requested, provide documentation per “Credentialing Checklist & Application”, for the level and position per above criteria and the “State Credentialing Processing Procedure” (state position credentialing is voluntary, but is required for interstate mutual aid and NIMS compliance).
- Refresher requirement may be met by documenting actual incident experiences at the position, filling equivalent local EOC level ICS positions, drills, exercises or other refresher training in subject matter, position and/or function listed above within a 5 year period.

SEMS Level: Local Emergency Operations Center (EOC)

SEMS Position: Fire and Rescue Branch Coordinator

Certification:

- SEMS “Equivalent” Field Level Course – ACI Orientation, Basic Modules 1-6, Intermediate Modules 7-11, and Advance Modules 12-17
 - ▶ Or ICS 100-400, NWCG ICS Courses, etc.
- SEMS/NIMS “Equivalent” EOC G 611 Course, incl. “Fire and Rescue Branch Coordinator” Position Training
- IS-700 NIMS “Equivalent” Overview Training
 - ▶ Or SEMS/ICS/NIMS Combined Course, POST NIMS/SEMS Basic Course, etc.
- IS 800 B National Response Framework
- Situation & Resource Tracking System training (i.e. RIMS, ROSS, etc.)
- Medically and physically fit to complete multiple Operational Periods.

Qualifications:

- 1 year field and management experience in a paid fire department related to the (fire and rescue) discipline specific function performed for a City, County, Tribal or Special District
 - ▶ Or Certified Emergency Manager (CEM) credential
 - ▶ Or CalEMA/CSTI Emergency Management Specialists Certificates
 - ▶ Or Designated as “Fire & Rescue Branch Coordinator” in the Local Emergency Plan
- 1 “complex” multi-agency incident experiences, by actually filling an “Fire & Rescue Branch Coordinator” in an EOC during a declared emergency, with an evaluation of “Satisfactory” or above by the supervising SEMS position
 - ▶ Or filling the above position at an EOC during 3 multi agency exercises, with an evaluation of “Satisfactory” or above by the supervising SEMS position or evaluator
 - ▶ Or mentoring under a person filling the above position at an EOC during 2 “complex” multi-agency incidents, with an evaluation of “Satisfactory” or above by the supervising SEMS position
- CalEMA/CSTI, FEMA, etc. Emergency Management Course (e.g. 36 hour Earthquake Course or a Professional Development Series course)
 - ▶ Or completion of a minimum of 12 units of core course work from an accredited college or university in the field of emergency management or closely related field
 - ▶ Or CalEMA/CSTI Emergency Management Specialists Certificates
- Any existing discipline specific certification, qualifications, and standards required by the proper authority (i.e. CICC/310-1, SFM, etc.)

Credentialing:

- If state certification is requested, provide documentation per “Credentialing Checklist & Application”, for the level and position per above criteria and the “State Credentialing Processing Procedure” (state position credentialing is voluntary, but is required for interstate mutual aid and NIMS compliance).
- Refresher requirement may be met by documenting actual incident experiences at the position, filling equivalent local EOC level ICS positions, drills, exercises or other refresher training in subject matter, position and/or function listed above within a 5 year period.

SEMS Level: Local Emergency Operations Center (EOC)

SEMS Position: Haz Mat Unit Leader

Certification:

- SEMS “Equivalent” Field Level Course – ACI Orientation, Basic Modules 1-6, Intermediate Modules 7-11, and Advance Modules 12-17
 - ▶ Or ICS 100-400, NWCG ICS Courses, etc.
- SEMS/NIMS “Equivalent” EOC G 611 Course, incl. “Haz Mat Unit” Position Training
- IS-700 NIMS “Equivalent” Overview Training
 - ▶ Or SEMS/ICS/NIMS Combined Course, POST NIMS/SEMS Basic Course, etc.
- IS 800 B National Response Framework
- Medically and physically fit to complete multiple Operational Periods.

Qualifications:

- 1 year field and supervisory fire or health experience (i.e. Captain or above in the fire service or Environmental Health supervisor on a Haz Mat Team, etc.) related to the hazardous materials function performed for a City, County, Tribal or Special District
 - ▶ Or Certified Emergency Manager (CEM) credential
 - ▶ Or CalEMA/CSTI Emergency Management Specialists Certificates
 - ▶ Or Designated as “Haz Mat Unit Leader” in the Local Emergency Plan by the appropriate governing body
- 1 “complex” multi-agency incident experiences, by actually filling an “Haz Mat Unit Leader” position in an EOC during a declared emergency, with an evaluation of “Satisfactory” or above by the supervising SEMS position
 - ▶ Or filling the above position at an EOC during 3 multi agency exercises, with an evaluation of “Satisfactory” or above by the supervising SEMS position or evaluator
 - ▶ Or mentoring under a person filling the above position at an EOC during 2 “complex” multi-agency incidents, with an evaluation of “Satisfactory” or above by the supervising SEMS position
- Any existing discipline specific certification, qualifications, and standards required by the proper authority (i.e. OSHA, CICCIS, Ca. Code of Regulations Title 19 Section 2520 at the Technician/Specialist level)

Credentialing:

- If state certification is requested, provide documentation per “Credentialing Checklist & Application”, for the level and position per above criteria and the “State Credentialing Processing Procedure” (state position credentialing is voluntary, but is required for interstate mutual aid and NIMS compliance).
- Refresher requirement may be met by documenting actual incident experiences at the position, filling equivalent local EOC level ICS positions, drills, exercises or other refresher training in subject matter, position and/or function listed above within a 5 year period.

SEMS Level: Local Emergency Operations Center (EOC)

SEMS Position: Law Enforcement Branch Coordinator

Certification:

- SEMS “Equivalent” Field Level Course – ACI Orientation, Basic Modules 1-6, Intermediate Modules 7-11, and Advance Modules 12-17
 - ▶ Or ICS 100-400, NWCG ICS Courses, etc.
- SEMS/NIMS “Equivalent” EOC G 611 Course, incl. “Law Enforcement Branch Coordinator” Position Training
- IS-700 NIMS “Equivalent” Overview Training
 - ▶ Or SEMS/ICS/NIMS Combined Course, POST NIMS/SEMS Basic Course, etc.
- IS 800 B National Response Framework
- Situation & Resource Tracking System training (i.e. RIMS, ROSS, etc.)
- Medically and physically fit to complete multiple Operational Periods.

Qualifications:

- 1 year field and management experience as a sworn Peace Officer related to the (law enforcement) discipline function performed for a City, County, Tribal or Special District
 - ▶ Or Certified Emergency Manager (CEM) credential
 - ▶ Or CalEMA/CSTI Emergency Management &/or Terrorism Specialists Certificates
 - ▶ Or Designated as “Law Enforcement Branch Coordinator” in the Local Emergency Plan
- 1 “complex” multi-agency incident experiences, by actually filling an “Law Enforcement Branch Coordinator” position in an EOC during a declared emergency, with an evaluation of “Satisfactory” or above by the supervising SEMS position
 - ▶ Or filling the above position at an EOC during 3 multi agency exercises, with an evaluation of “Satisfactory” or above by the supervising SEMS position or evaluator
 - ▶ Or mentoring under a person filling the above position at an EOC during 2 “complex” multi-agency incidents, with an evaluation of “Satisfactory” or above by the supervising SEMS position
- CalEMA/CSTI, FEMA, etc. Emergency Management Course (e.g. 36 hour Earthquake Course or a Professional Development Series course)
 - ▶ Or completion of a minimum of 12 units of core course work from an accredited college or university in the field of emergency management or closely related field
 - ▶ Or CalEMA/CSTI Emergency Management &/or Terrorism Specialists Certificates
- Any existing discipline specific certification, qualifications, and standards required by the proper authority (e.g. POST)

Credentialing:

- If state certification is requested, provide documentation per “Credentialing Checklist & Application”, for the level and position per above criteria and the “State Credentialing Processing Procedure” (state position credentialing is voluntary, but is required for interstate mutual aid and NIMS compliance).
- Refresher requirement may be met by documenting actual incident experiences at the position, filling equivalent local EOC level ICS positions, drills, exercises or other refresher training in subject matter, position and/or function listed above within a 5 year period.

SEMS Level: Local Emergency Operations Center (EOC)

SEMS Position: Coroner Unit Leader:

Certification:

- SEMS/NIMS “Equivalent” EOC G 611 Course, including “Coroner Unit” Position Training
- IS-700 NIMS “Equivalent” Overview Training
 - ▶ Or SEMS/ICS/NIMS Combined Course, POST NIMS/SEMS Basic Course, etc.
- IS 800 B National Response Framework
- Medically and physically fit to complete multiple Operational Periods.

Qualifications:

- 1 year experience related to coroner functions or coroner department for a City, County, Tribal or Special District
 - ▶ Or Certified Emergency Manager (CEM) credential
 - ▶ Or CalEMA/CSTI Emergency Management &/or Terrorism Specialists Certificates
 - ▶ Or Designated as “Coroner Unit Leader” in the Local Emergency Plan by the appropriate governing body
- 1 “complex” multi-agency incident experiences, by actually filling an “Coroner Unit Leader” position in an EOC during a declared emergency, with an evaluation of “Satisfactory” or above by the supervising SEMS position
 - ▶ Or filling the above position at an EOC during 3 multi agency exercises, with an evaluation of “Satisfactory” or above by the supervising SEMS position or evaluator
 - ▶ Or mentoring under a person filling the above position at an EOC during 2 “complex” multi-agency incidents, with an evaluation of “Satisfactory” or above by the supervising SEMS position
- Any existing discipline specific certification, qualifications, and standards required by the proper authority (i.e. POST)

Credentialing:

- If state certification is requested, provide documentation per “Credentialing Checklist & Application”, for the level and position per above criteria and the “State Credentialing Processing Procedure” (state position credentialing is voluntary, but is required for interstate mutual aid and NIMS compliance).
- Refresher requirement may be met by documenting actual incident experiences at the position, filling equivalent local EOC level ICS positions, drills, exercises or other refresher training in subject matter, position and/or function listed above within a 5 year period.

SEMS Level: Local Emergency Operations Center (EOC)

SEMS Position: Medical and Health Branch Coordinator-

Certification:

- SEMS “Equivalent” Field Level Course – ACI Orientation, Basic Modules 1-6, Intermediate Modules 7-11, and Advance Modules 12-17
 - ▶ Or ICS 100-400, NWCG ICS Courses, etc.
- SEMS/NIMS “Equivalent” EOC G 611 Course, incl. “Medical and Health Branch Coordinator” Position Training
 - ▶ Or SEMS position-specific, hands-on as “Medical and Health Branch Coordinator
- EMSA Medical Manager Course
- IS-700 NIMS “Equivalent” Overview Training
 - ▶ Or SEMS/ICS/NIMS Combined Course, POST NIMS/SEMS Basic Course, etc.
- IS 800 B National Response Framework
- Situation & Resource Tracking System training (i.e. RIMS, ROSS, etc.)
- Medically and physically fit to complete multiple Operational Periods.

Qualifications:

- 2 years experience as an EMT or Paramedic with an EMS field and management responsibility within the state of California
 - ▶ Or 2 years experience as a health care professional with field and management experience within the state of California
 - ▶ Or Certified Emergency Manager (CEM) credential
 - ▶ Or CalEMA/CSTI Emergency Management Specialists Certificates
 - ▶ Or Designated as “Medical & Health Branch Coordinator” in the Local Emergency Plan
- 1 “complex” multi-agency incident experiences, by actually filling an “Medical and Health Branch Coordinator” position in an EOC during a declared emergency, with an evaluation of “Satisfactory” or above by the supervising SEMS position
 - ▶ Or filling the above position at an EOC during 3 multi agency exercises, with an evaluation of “Satisfactory” or above by the supervising SEMS position or evaluator
 - ▶ Or mentoring under a person filling the above position at an EOC during 2 “complex” multi-agency incidents, with an evaluation of “Satisfactory” or above by the supervising SEMS position
- CalEMA/CSTI, FEMA, etc. Emergency Management Course (e.g. CSTI Disaster Medical Operations/DMO Course or a Professional Development Series course)
 - ▶ Or completion of a minimum of 12 units of core course work from an accredited college or university in the field of emergency management or closely related field
 - ▶ Or CalEMA/CSTI Emergency Management Specialists Certificates
- Familiarity with Ambulance Strike Team (AST) and Medical Task Force (MTF) concepts
- Any existing California “EMSA” or “CDHS” certifications, qualifications or standards

Credentialing:

- If state certification is requested, provide documentation per “Credentialing Checklist & Application”, for the level and position per above criteria and the “State Credentialing Processing Procedure” (state position credentialing is voluntary, but is required for interstate mutual aid and NIMS compliance).
- Refresher requirement may be met by documenting actual incident experiences at the position, filling equivalent local EOC level ICS positions, drills, exercises or other refresher training in subject matter, position and/or function listed above within a 5 year period.

SEMS Level: Local Emergency Operations Center (EOC)

SEMS Position: Medical Unit Leader

Certification:

- SEMS “Equivalent” Field Level Course – ACI Orientation, Basic Modules 1-6, Intermediate Modules 7-11, and Advance Modules 12-17
 - ▶ Or ICS 100-400, NWCG ICS Courses, etc.
- SEMS/NIMS “Equivalent” EOC G 611 Course, incl. “Medical Unit” Position Training –
 - ▶ Or SEMS position specific hands on training as “Medical Unit”
- EMSA Medical Manager Course
- IS-700 NIMS “Equivalent” Overview Training
 - ▶ Or SEMS/ICS/NIMS Combined Course, POST NIMS/SEMS Basic Course, etc.
- IS 800 B National Response Framework
- Medically and physically fit to complete multiple Operational Periods.

Qualifications:

- 1 year experience as an EMT or Paramedic with an EMS field and management responsibility within the state of California
 - ▶ Or Designated as “Medical Unit Leader” in the local Emergency Plan by the appropriate governing body
 - ▶ Or Certified Emergency Manager (CEM) credential
 - ▶ Or CalEMA/CSTI Emergency Management Specialists Certificates
- 1 “complex” multi-agency incident experiences, by actually filling an “Medical Unit Leader” position in an EOC during a declared emergency, with an evaluation of “Satisfactory” or above by the supervising SEMS position
 - ▶ Or filling the above position at an EOC during 3 multi agency exercises, with an evaluation of “Satisfactory” or above by the supervising SEMS position or evaluator
 - ▶ Or mentoring under a person filling the above position at an EOC during 2 “complex” multi-agency incidents, with an evaluation of “Satisfactory” or above by the supervising SEMS position
- familiarity with Ambulance Strike Team (AST) and Medical Task Force (MTF) concepts
- Any existing California “EMSA” or CDHS certifications, qualifications or standards

Credentialing:

- If state certification is requested, provide documentation per “Credentialing Checklist & Application”, for the level and position per above criteria and the “State Credentialing Processing Procedure” (state position credentialing is voluntary, but is required for interstate mutual aid and NIMS compliance).
- Refresher requirement may be met by documenting actual incident experiences at the position, filling equivalent local EOC level ICS positions, drills, exercises or other refresher training in subject matter, position and/or function listed above within a 5 year period.

SEMS Level: Local Emergency Operations Center (EOC)

SEMS Position: Health Unit Leader

Certification:

- SEMS “Equivalent” Field Level Course – ACI Orientation, Basic Modules 1-6, Intermediate Modules 7-11, and Advance Modules 12-17
 - ▶ Or ICS 100-400, NWCG ICS Courses, etc.
- SEMS/NIMS “Equivalent” EOC G 611 Course, incl. “ Health Unit” Position Training
- IS-700 NIMS “Equivalent” Overview Training
 - ▶ Or SEMS/ICS/NIMS Combined Course, POST NIMS/SEMS Basic Course, etc.
- EMSA Medical Manager course
- IS 800 B National Response Framework
- Medically and physically fit to complete multiple Operational Periods.

Qualifications:

- 1 year experience as a health care professional with field and/or management experience within the state of California
 - ▶ Or Certified Emergency Manager (CEM) credential
 - ▶ Or CalEMA/CSTI Emergency Management Specialists Certificates
 - ▶ Or Designated as “Health Unit Leader” in the local Emergency Plan by the appropriate governing body
- 1 “complex” multi-agency incident experiences, by actually filling an “Health Unit Leader” position in an EOC during a declared emergency, with an evaluation of “Satisfactory” or above by the supervising SEMS position
 - ▶ Or filling the above position at an EOC during 3 multi agency exercises, with an evaluation of “Satisfactory” or above by the supervising SEMS position or evaluator
 - ▶ Or mentoring under a person filling the above position at an EOC during 2 “complex” multi-agency incidents, with an evaluation of “Satisfactory” or above by the supervising SEMS position
- Any existing “CDHS” certifications, qualifications or standards

Credentialing:

- If state certification is requested, provide documentation per “Credentialing Checklist & Application”, for the level and position per above criteria and the “State Credentialing Processing Procedure” (state position credentialing is voluntary, but is required for interstate mutual aid and NIMS compliance).
- Refresher requirement may be met by documenting actual incident experiences at the position, filling equivalent local EOC level ICS positions, drills, exercises or other refresher training in subject matter, position and/or function listed above within a 5 year period.

SEMS Level: Local Emergency Operations Center (EOC)

SEMS Position: Care & Shelter Branch Coordinator

Certification:

- SEMS/NIMS “Equivalent” EOC G 611 Course, incl. “Care & Shelter Branch Coordinator” Position Training
- IS-700 NIMS “Equivalent” Overview Training
 - ▶ Or SEMS/ICS/NIMS Combined Course, POST NIMS/SEMS Basic Course, etc.
- IS 800 B National Response Framework
- Situation & Resource Tracking System training (i.e. RIMS, ROSS, etc.)
- Medically and physically fit to complete multiple Operational Periods

Qualifications:

- 1 year field and management experience in caring for and sheltering displaced persons
 - ▶ Or Certified Emergency Manager (CEM) credential
 - ▶ Or CalEMA/CSTI Emergency Management Specialists Certificates
 - ▶ Or designated as “Care & Shelter Branch Coordinator” in local Emergency Plan
- 1 “complex” multi-agency incident experience, by actually filling a “Care & Shelter Branch Coordinator” position at a EOC during a declared emergency, with an evaluation of “Satisfactory” or above by the supervising SEMS position
 - ▶ Or filling the above position at a EOC during 3 multi agency exercises, with an evaluation of “Satisfactory” or above by the supervising SEMS position or evaluator
 - ▶ Or mentoring under a person filling the above position at a local EOC during 2 “complex” multi-agency incidents, with an evaluation of “Satisfactory” or above by the supervising SEMS position
- CalEMA/CSTI, FEMA, etc. Emergency Management Course (e.g. CSTI Earthquake Course)
 - ▶ Or completion of a minimum of 12 units of core course work from an accredited college or university in the field of emergency management or closely related field
 - ▶ Or CalEMA/CSTI Emergency Management Specialists Certificates
- Any existing “Red Cross” or “Salvation Army” or any other non-profit care and shelter agency certifications, qualifications or standards

Credentialing:

- If state certification is requested, provide documentation per “Credentialing Checklist & Application”, for the level and position per above criteria and the “State Credentialing Processing Procedure” (state position credentialing is voluntary, but is required for interstate mutual aid and NIMS compliance).
- Refresher requirement may be met by documenting actual incident experiences at the position, filling equivalent local EOC level ICS positions, drills, exercises or other refresher training in subject matter, position and/or function listed above within a 5 year period.

SEMS Level: Local Emergency Operations Center (EOC)

SEMS Position: Public Works Branch Coordinator

Certification:

- SEMS/NIMS “Equivalent” EOC G 611 Course, incl. “Public Works Branch Coordinator” Position Training
- IS-700 NIMS “Equivalent” Overview Training
 - ▶ Or SEMS/ICS/NIMS Combined Course, POST NIMS/SEMS Basic Course, etc.
- IS 800 B National Response Framework
- Situation & Resource Tracking System training (i.e. RIMS, ROSS, etc.)
- Medically and physically fit to complete multiple Operational Periods

Qualifications:

- 1 year field and management experience in construction or engineering disciplines (e.g., Maintenance Manager or above, Construction Superintendent or above, Senior Engineer or above, etc.)
 - ▶ Or Certified Emergency Manager (CEM) credential
 - ▶ Or CalEMA/CSTI Emergency Management Specialists Certificates
 - ▶ Or designated as “Public Works Branch Coordinator” in local Emergency Plan
- 1 “complex” multi-agency incident experience, by actually filling a “Public Works Branch Coordinator” position in an EOC during a declared emergency, with an evaluation of “Satisfactory” or above by the supervising SEMS position
 - ▶ Or filling the above position at a EOC during 3 multi agency exercises, with an evaluation of “Satisfactory” or above by the supervising SEMS position or evaluator
 - ▶ Or mentoring under a person filling the above position at a EOC during 2 “complex” multi-agency incidents, with an evaluation of “Satisfactory” or above by the supervising SEMS position
- CalEMA/CSTI, FEMA, etc. Emergency Management Course (e.g. CSTI Earthquake Course)
 - ▶ Or completion of a minimum of 12 units of core course work from an accredited college or university in the field of emergency management or closely related field
 - ▶ Or CalEMA/CSTI Emergency Management Specialists Certificates

Credentialing:

- If state certification is requested, provide documentation per “Credentialing Checklist & Application”, for the level and position per above criteria and the “State Credentialing Processing Procedure” (state position credentialing is voluntary, but is required for interstate mutual aid and NIMS compliance).
- Refresher requirement may be met by documenting actual incident experiences at the position, filling equivalent local EOC level ICS positions, drills, exercises or other refresher training in subject matter, position and/or function listed above within a 5 year period.

SEMS Level: Local EOC Level

SEMS Position: Utilities Unit Leader

Certification:

- SEMS/NIMS “Equivalent” EOC G 611 Course, incl. “Utilities Unit” Position Training
- IS-700 NIMS “Equivalent” Overview Training
 - ▶ Or SEMS/ICS/NIMS Combined Course, POST NIMS/SEMS Basic Course, etc.
- IS 800 B National Response Framework
- Medically and physically fit to complete multiple Operational Periods.

Qualifications:

- 1 year experience as “Utilities Unit Leader” for a utility, City, County or Special District
 - ▶ Or designated as a EOC “Utilities Unit Leader” in the local Emergency Plan
- 1 “complex” multi-agency incident experience, by actually filling the “Utilities Unit Leader” position in an EOC during a declared emergency, with an evaluation of “Satisfactory” or above by the supervising SEMS position
 - ▶ Or filling the above position in an EOC during 3 major multi-agency exercises, with an evaluation of “Satisfactory” or above by the supervising SEMS position or evaluator
 - ▶ Or mentoring under a person filling the above position in an EOC during 2 “complex” multi-agency incidents, with an evaluation of “Satisfactory” or above by the supervising SEMS position
- Any other existing discipline specific certifications, qualifications and standards required by the proper authority (i.e. CICC/310-1, etc.).

Credentialing:

- If state certification is requested, provide documentation per “Credentialing Checklist & Application”, for the level and position per above criteria and the “State Credentialing Processing Procedure” (state position credentialing is voluntary, but is required for interstate mutual aid and NIMS compliance).
- Refresher requirement may be met by documenting actual incident experiences at the position, filling equivalent local EOC level ICS positions, drills, exercises or other refresher training in subject matter, position and/or function listed above within a 5 year period.

SEMS Level: Local Emergency Operations Center (EOC)

SEMS Position: Damage Assessment Unit Leader

Certification:

- SEMS/NIMS “Equivalent” EOC G 611 Course, incl. “Damage Assessment Unit” Position Training
- IS-700 NIMS “Equivalent” Overview Training
 - ▶ Or SEMS/ICS/NIMS Combined Course, POST NIMS/SEMS Basic Course, etc.
- IS 800 B National Response Framework
- Medically and physically fit to complete multiple Operational Periods

Qualifications:

- 1 year field and management experience in engineering disciplines (e.g., civil, structural, etc.)
 - ▶ Or Certified Emergency Manager (CEM) credential
 - ▶ Or CalEMA/CSTI Emergency Management Specialists Certificates
 - ▶ Or designated as “Damage Assessment Unit Leader” in local Emergency Plan
 - 1 “complex” multi-agency incident experience, by actually filling a “Damage Assessment Unit Leader” position in a local EOC during a declared emergency, with an evaluation of “Satisfactory” or above by the supervising SEMS position
 - ▶ Or filling the above position at a EOC during 3 multi agency exercises, with an evaluation of “Satisfactory” or above by the supervising SEMS position or evaluator
 - ▶ Or mentoring under a person filling the above position at a EOC during 2 “complex” multi-agency incidents, with an evaluation of “Satisfactory” or above by the supervising SEMS position
- ▶

Credentialing:

- If state certification is requested, provide documentation per “Credentialing Checklist & Application”, for the level and position per above criteria and the “State Credentialing Processing Procedure” (state position credentialing is voluntary, but is required for interstate mutual aid and NIMS compliance).
- Refresher requirement may be met by documenting actual incident experiences at the position, filling equivalent local EOC level ICS positions, drills, exercises or other refresher training in subject matter, position and/or function listed above within a 5 year period.

SEMS Level: Local Emergency Operations Center (EOC)

SEMS Position: Critical Infrastructure Branch Coordinator

Certification:

- SEMS/NIMS “Equivalent” EOC G 611 Course, incl. “Critical Infrastructure Branch Coordination” Position Training
- IS-700 NIMS “Equivalent” Overview Training
 - ▶ Or SEMS/ICS/NIMS Combined Course, POST NIMS/SEMS Basic Course, etc.
- IS 800 B National Response Framework
- Situation & Resource Tracking System training (i.e. RIMS, ROSS, etc.)
- Medically and physically fit to complete multiple Operational Periods

Qualifications:

- 1 year experience related to designing, building, maintaining or regulating a specific area of infrastructure (i.e. water, power, communication, etc.)
 - ▶ Or Certified Emergency Manager (CEM) credential
 - ▶ Or CalEMA/CSTI Emergency Management Specialists Certificates
 - ▶ Or designated as “Critical Infrastructure Branch Coordinator” in local Emergency Plan
- 1 “complex” multi-agency incident experience, by actually filling a “Critical Infrastructure Branch Coordinator” position at a EOC during a declared emergency, with an evaluation of “Satisfactory” or above by the supervising SEMS position
 - ▶ Or filling the above position at a EOC during 3 multi agency exercises, with an evaluation of “Satisfactory” or above by the supervising SEMS position or evaluator
 - ▶ Or mentoring under a person filling the above position at a EOC during 2 “complex” multi-agency incidents, with an evaluation of “Satisfactory” or above by the supervising SEMS position
- CalEMA/CSTI, FEMA, etc. Emergency Management Course (e.g. CSTI Earthquake Course)
 - ▶ Or completion of a minimum of 12 units of core course work from an accredited college or university in the field of emergency management or closely related field
 - ▶ Or CalEMA/CSTI Emergency Management Specialists Certificates
- Any existing “Professional” certifications, qualifications or standards related to the specific area of infrastructure

Credentialing:

- If state certification is requested, provide documentation per “Credentialing Checklist & Application”, for the level and position per above criteria and the “State Credentialing Processing Procedure” (state position credentialing is voluntary, but is required for interstate mutual aid and NIMS compliance).
- Refresher requirement may be met by documenting actual incident experiences at the position, filling equivalent local EOC level ICS positions, drills, exercises or other refresher training in subject matter, position and/or function listed above within a 5 year period.

SEMS Level: Local Emergency Operations Center (EOC)

SEMS Position: Agriculture Branch Coordinator

Certification:

- SEMS/NIMS “Equivalent” EOC G 611 Course, incl. “Agriculture Branch Coordinator” Position Training
- IS-700 NIMS “Equivalent” Overview Training
 - ▶ Or SEMS/ICS/NIMS Combined Course, POST NIMS/SEMS Basic Course, etc.
- IS 800 B National Response Framework
- Situation & Resource Tracking System training (i.e. RIMS, ROSS, etc.)
- Medically and physically fit to complete multiple Operational Periods

Qualifications:

- 1 year field and management experience in a agriculture related agency
 - ▶ Or Certified Emergency Manager (CEM) credential
 - ▶ Or CalEMA/CSTI Emergency Management Specialists Certificates
 - ▶ Or designated as “Agriculture Branch Coordinator” in local Emergency Plan
- 1 “complex” multi-agency incident experience, by actually filling a “Agriculture Branch Coordinator” position at a EOC during a declared emergency, with an evaluation of “Satisfactory” or above by the supervising SEMS position
 - ▶ Or filling the above position at a EOC during 3 multi agency exercises, with an evaluation of “Satisfactory” or above by the supervising SEMS position or evaluator
 - ▶ Or mentoring under a person filling the above position at a EOC during 2 “complex” multi-agency incidents, with an evaluation of “Satisfactory” or above by the supervising SEMS position
- CalEMA/CSTI, FEMA, etc. Emergency Management Course (e.g. CSTI Earthquake Course)
 - ▶ Or completion of a minimum of 12 units of core course work from an accredited college or university in the field of emergency management or closely related field
 - ▶ Or CalEMA/CSTI Emergency Management Specialists Certificates
- Any existing “Agriculture” certifications, qualifications or standards

Credentialing:

- If state certification is requested, provide documentation per “Credentialing Checklist & Application”, for the level and position per above criteria and the “State Credentialing Processing Procedure” (state position credentialing is voluntary, but is required for interstate mutual aid and NIMS compliance).
- Refresher requirement may be met by documenting actual incident experiences at the position, filling equivalent local EOC level ICS positions, drills, exercises or other refresher training in subject matter, position and/or function listed above within a 5 year period.

SEMS Level: Local Emergency Operations Center (EOC)

SEMS Position: Agriculture Analysis Unit Leader

Certification:

- SEMS/NIMS “Equivalent” EOC G 611 Course, incl. “Agriculture Analysis Unit” Position Training
- IS-700 NIMS “Equivalent” Overview Training
 - ▶ Or SEMS/ICS/NIMS Combined Course, POST NIMS/SEMS Basic Course, etc.
- IS 800 B National Response Framework
- Medically and physically fit to complete multiple Operational Periods

Qualifications:

- 1 year experience related to an agriculture agency
 - ▶ Or Certified Emergency Manager (CEM) credential
 - ▶ Or CalEMA/CSTI Emergency Management Specialists Certificates
 - ▶ Or designated as “Agriculture Analysis Unit Leader” in local Emergency Plan
- 1 “complex” multi-agency incident experience, by actually filling the “Agriculture Analysis Unit Leader” position at a EOC during a declared emergency, with an evaluation of “Satisfactory” or above by the supervising SEMS position
 - ▶ Or filling the above position at a EOC during 3 multi agency exercises, with an evaluation of “Satisfactory” or above by the supervising SEMS position or evaluator
 - ▶ Or mentoring under a person filling the above position at a EOC during 2 “complex” multi-agency incidents, with an evaluation of “Satisfactory” or above by the supervising SEMS position
- Any existing “Agriculture” certifications, qualifications or standards

Credentialing:

- If state certification is requested, provide documentation per “Credentialing Checklist & Application”, for the level and position per above criteria and the “State Credentialing Processing Procedure” (state position credentialing is voluntary, but is required for interstate mutual aid and NIMS compliance).
- Refresher requirement may be met by documenting actual incident experiences at the position, filling equivalent local EOC level ICS positions, drills, exercises or other refresher training in subject matter, position and/or function listed above within a 5 year period.

SEMS Level: Operational Area (OA) Emergency Operations Center (EOC)

SEMS Position: Animal Control Unit Leader

Certification:

- SEMS/NIMS “Equivalent” EOC G 611 Course, incl. “Agriculture Control Unit” Position Training
- IS-700 NIMS “Equivalent” Overview Training
 - ▶ Or SEMS/ICS/NIMS Combined Course, POST NIMS/SEMS Basic Course, etc.
- IS 800 B National Response Framework
- Medically and physically fit to complete multiple Operational Periods

Qualifications:

- 1 year experience related to an animal services unit
 - ▶ Or Certified Emergency Manager (CEM) credential
 - ▶ Or CalEMA/CSTI Emergency Management Specialists Certificates
 - ▶ Or designated as “Animal Control Unit Leader” in local Emergency Plan
- 1 “complex” multi-agency incident experience, by actually filling the “Animal Control Unit Leader” position at a EOC during a declared emergency, with an evaluation of “Satisfactory” or above by the supervising SEMS position
 - ▶ Or filling the above position at a EOC during 3 multi agency exercises, with an evaluation of “Satisfactory” or above by the supervising SEMS position or evaluator
 - ▶ Or mentoring under a person filling the above position at a EOC during 2 “complex” multi-agency incidents, with an evaluation of “Satisfactory” or above by the supervising SEMS position
- Any existing “Agriculture” certifications, qualifications or standards

Credentialing:

- If state certification is requested, provide documentation per “Credentialing Checklist & Application”, for the level and position per above criteria and the “State Credentialing Processing Procedure” (state position credentialing is voluntary, but is required for interstate mutual aid and NIMS compliance).
- Refresher requirement may be met by documenting actual incident experiences at the position, filling equivalent local EOC level ICS positions, drills, exercises or other refresher training in subject matter, position and/or function listed above within a 5 year period.

SEMS Level: Local Emergency Operations Center (EOC)

SEMS Position: Planning/Intelligence Section Coordinator

Certification

- SEMS Field Level Course – ACI Orientation, Basic Modules 1-6, Intermediate Modules 7-11, and Advance Modules 12-17
 - ▶ Or ICS 100-400
- SEMS/NIMS “Equivalent” EOC G 611 Course, incl. “Planning/Intelligence Section Coordinator” Position Training
- IS-700 NIMS “Equivalent” Overview Training
 - ▶ Or SEMS/ICS/NIMS Combined Course, POST NIMS/SEMS Basic Course, etc.
- IS 800 B National Response Framework
- Situation & Resource Tracking System training (i.e. RIMS, ROSS, etc.)
- Medically and physically fit to complete multiple Operational Periods

Qualifications:

- 1 year experience in “mid or upper level management” within a “planning” or “emergency services” related department/agency
 - ▶ Or Certified Emergency Manager (CEM) credential
 - ▶ Or CalEMA/CSTI Emergency Management &/or Terrorism Specialists Certificates
 - ▶ Or designated as “Planning/Intelligence Section Coordinator” in local Emergency Plan
- 2 “complex” multi-agency incident experiences, by actually filling the “Planning/ Intelligence Coordinator” (or “Deputy Planning/Intelligence Coordinator” or other “General Staff”) position in a EOC during a declared emergency, with an evaluation of “Satisfactory” or above by the supervising SEMS position
 - ▶ Or filling the above position in a EOC during 4 multi agency exercises, with an evaluation of “Satisfactory” or above by the supervising SEMS position or evaluator
 - ▶ Or mentoring under a person filling the above position in a EOC during 3 “complex” multi-agency incidents, with an evaluation of “Satisfactory” or above by the supervising SEMS position
- CalEMA/CSTI, FEMA, etc. Emergency Management Course (e.g. 36 hour Disaster Planning Course or a Professional Development Series course)
 - ▶ Or completion of a minimum of 12 units of core course work from an accredited college or university in the field of emergency management or closely related field

Credentialing:

- If state certification is requested, provide documentation per “Credentialing Checklist & Application”, for the level and position per above criteria and the “State Credentialing Processing Procedure” (state position credentialing is voluntary, but is required for interstate mutual aid and NIMS compliance).
- Refresher requirement may be met by documenting actual incident experiences at the position, filling equivalent local EOC level ICS positions, drills, exercises or other refresher training in subject matter, position and/or function listed above within a 5 year period.

SEMS Level: Local Emergency Operations Center (EOC)

SEMS Position: Advanced Planning Unit Leader

Certification:

- SEMS/NIMS “Equivalent” EOC G 611 Course, incl. “Advanced Planning Unit” Position Training
- IS-700 NIMS “Equivalent” Overview Training
 - ▶ Or SEMS/ICS/NIMS Combined Course, POST NIMS/SEMS Basic Course, etc.
- IS 800 B National Response Framework
- Medically and physically fit to complete multiple Operational Periods

Qualifications:

- 1 year supervisory experience within a “planning” related department/agency
 - ▶ Or Certified Emergency Manager (CEM) credential
 - ▶ Or CalEMA/CSTI Emergency Management &/or Terrorism Specialists Certificates
 - ▶ Or designated as “Advanced Planning Unit Leader” in local Emergency Plan
- 1 “complex” multi-agency incident experience, by actually filling the “Advanced Planning Unit Leader” (or any “Unit Leader” within the Planning/Intelligence Section) position at a EOC during a declared emergency, with an evaluation of “Satisfactory” or above by the supervising SEMS position
 - ▶ Or filling the above position at a EOC during 3 multi agency exercises, with an evaluation of “Satisfactory” or above by the supervising SEMS position or evaluator
 - ▶ Or mentoring under a person filling the above position at a OA EOC during 2 “complex” multi-agency incidents, with an evaluation of “Satisfactory” or above by the supervising SEMS position

Credentialing:

- If state certification is requested, provide documentation per “Credentialing Checklist & Application”, for the level and position per above criteria and the “State Credentialing Processing Procedure” (state position credentialing is voluntary, but is required for interstate mutual aid and NIMS compliance).
- Refresher requirement may be met by documenting actual incident experiences at the position, filling equivalent local EOC level ICS positions, drills, exercises or other refresher training in subject matter, position and/or function listed above within a 5 year period.

SEMS Level: Local Emergency Operations Center (EOC)

SEMS Position: Situation Unit -Leader

Certification:

- SEMS Field Level Course – ACI Orientation, Basic Modules 1-6, Intermediate Modules 7-11, and Advance Modules 12-17
 - ▶ Or ICS 100-400
- SEMS/NIMS “Equivalent” EOC G 611 Course, incl. “Situation Unit” Position Training
- IS-700 NIMS “Equivalent” Overview Training
 - ▶ Or SEMS/ICS/NIMS Combined Course, POST NIMS/SEMS Basic Course, etc.
- IS 800 B National Response Framework
- OES “Equivalent” RIMS Training
- Medically and physically fit to complete multiple Operational Periods

Qualifications:

- 1 year experience within a “planning” related department/agency
 - ▶ Or Certified Emergency Manager (CEM) credential
 - ▶ Or CalEMA/CSTI Emergency Management &/or Terrorism Specialists Certificates
 - ▶ Or designated as “Situation Unit Leader” in local Emergency Plan
- 1 “complex” multi-agency incident experience, by actually filling the “Situation Unit Leader” (or any “Unit Leader” within the Planning/Intelligence Section) position at a EOC during a declared emergency, with an evaluation of “Satisfactory” or above by the supervising SEMS position
 - ▶ Or filling the above position at a EOC during 3 multi agency exercises, with an evaluation of “Satisfactory” or above by the supervising SEMS position or evaluator
 - ▶ Or mentoring under a person filling the above position at a EOC during 2 “complex” multi-agency incidents, with an evaluation of “Satisfactory” or above by the supervising SEMS position

Credentialing:

- If state certification is requested, provide documentation per “Credentialing Checklist & Application”, for the level and position per above criteria and the “State Credentialing Processing Procedure” (state position credentialing is voluntary, but is required for interstate mutual aid and NIMS compliance).
- Refresher requirement may be met by documenting actual incident experiences at the position, filling equivalent local EOC level ICS positions, drills, exercises or other refresher training in subject matter, position and/or function listed above within a 5 year period.

SEMS Level: Local Emergency Operations Center (EOC)

SEMS Position: Logistics Section Coordinator

Certification

- SEMS Field Level Course – ACI Orientation, Basic Modules 1-6, Intermediate Modules 7-11, and Advance Modules 12-17
 - ▶ Or ICS 100-400
- SEMS/NIMS “Equivalent” EOC G 611 Course, incl. “Logistics Section Coordinator” Position Training
- IS-700 NIMS “Equivalent” Overview Training
 - ▶ Or SEMS/ICS/NIMS Combined Course, POST NIMS/SEMS Basic Course, etc.
- IS 800 B National Response Framework
- Situation & Resource Tracking System training (i.e. RIMS, ROSS, etc.)
- Medically and physically fit to complete multiple Operational Periods

Qualifications:

- 1 year experience in “mid or upper level management” within a “procurement” or “supply” or “emergency services” related department/agency
 - ▶ Or Certified Emergency Manager (CEM) credential
 - ▶ Or CalEMA/CSTI Emergency Management Specialists Certificate
 - ▶ Or designated as “Logistics Section Coordinator” in local Emergency Plan
- 2 “complex” multi-agency incident experiences, by actually filling the “Logistics Coordinator” (or “Deputy Logistics Coordinator” or other “General Staff”) position in a EOC during a declared emergency, with an evaluation of “Satisfactory” or above by the supervising SEMS position
